TOPOGRAPHY SECTION

GREEN WALK (INNER BODY REFLECTION)

According to our concept, 'inner body reflection' is the interconnection of various spaces with nature. 'Green walk' is the path of freshness to the inner mind. It is said that a person who has 'inner mind' is healthy and wealthy. When an area is engulfed with greenery, it not only upgrades the ecosystem. Of that area but highly developed it. The different textures and feel of nature is soothing and welcoming. Your concept here, lines emerged in a linear pattern of regular intervals which are separated by a small 'open' road from the people living there. They are constantly engulfed by a healthy living. Apart from those trees, small plants are also planted. The 'pure' or 'fresh' these trees the people 'from' diseases. This forms a 'togetherness' and 'clean' in the 'space'.
